

Autori Road Marking

Stay in control of your road marking contracts.

Plan, manage, document and follow road marking work in one operational environment. Autori Road Marking helps contractors and road authorities manage marking contracts with better visibility, stronger quality control and faster billing.

From inventory to completed work

Build the Marking Program

Use deficiency surveys and retroreflectivity measurements to establish baseline quality and plan marking work.

Manage Marking Sites

Follow site status, progress, crews and equipment in real time.

Work in the Field

Give field crews site details, maps and specifications through the mobile app.

Control Quality

Record deviations, measurements and quality data directly in the system.

Inspect Equipment

Standardize equipment inspections and improve transparency and compliance.

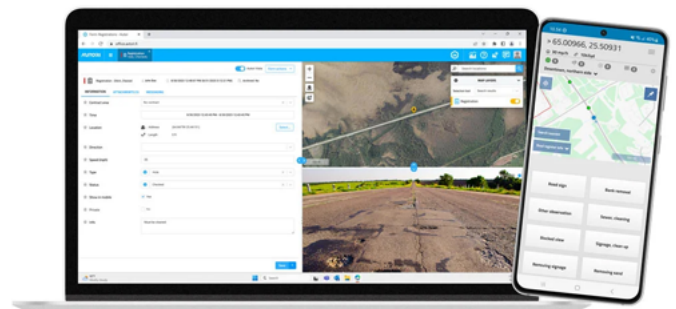

Accelerate Billing

Create billing directly from recorded site data and completed work.

Built for office and field teams

Keep everyone connected throughout the contract.

- Office and mobile use
- Shared site and contract information
- Different roles for crews and stakeholders
- Up-to-date information from planning to completion
