

Autori Pavement

Stay in control of your pavement contracts.

Plan, manage, document and follow pavement work in one operational environment.

Autori Pavement helps contractors and road authorities manage pavement contracts and sites with better visibility, reliable documentation and faster billing.

From site planning to completed work

Manage Pavement Sites

Create or import sites and follow status and progress in real time.

Plan & Coordinate

Allocate crews and equipment across resurfacing, patching and different work phases.

Work in the Field

Give field teams site details and instructions, and record completed work on mobile.

Manage Traffic Arrangements

Maintain an up-to-date view of worksite traffic arrangements and their documentation.

Track Removed Materials

Follow removed material from worksites and support compliant site completion.

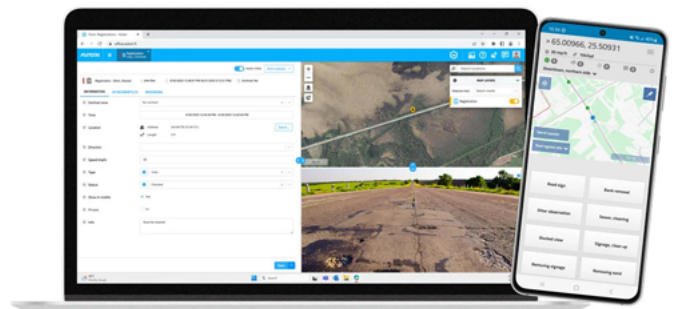

Accelerate Billing

Create billing directly from recorded site data and completed work.

Built for office and field teams

Keep everyone connected throughout the contract.

- **Office and mobile use**
- **Shared site and contract information**
- **Different roles for crews and stakeholders**
- **Up-to-date information from planning to completion**
