

Autori Road Maintenance

Stay in control of your road maintenance contracts.

Plan, manage, document and follow road maintenance work in one operational environment.

Autori Road Maintenance connects office and field operations, helping contractors, municipalities and road authorities manage road maintenance contracts with better visibility and less manual work.

From planning to completed work

Plan & Coordinate

Create work orders, assign tasks and plan maintenance routes.

Work in the Field

Access instructions, record completed work and document material usage on mobile.

Capture Observations

Record location-based observations with notes and images.

Stay Up to Date

Follow field operations and work progress in real time.

Use Road Asset Data

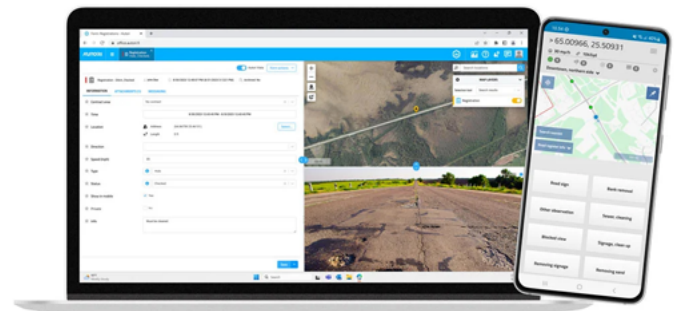

Bring road network and GIS information into planning and field execution.

Report with Confidence

Use maps, dashboards and reports to follow operations and contract performance.

Built for office and field teams

- Office and mobile use
- Flexible roles for different stakeholders
- Shared, up-to-date information across teams

Why Autori?

Save time – Reduce manual work

Improve visibility – Stay on top of contract operations

Strengthen documentation – Keep reliable records

Make better decisions – Use current operational and road data

Road maintenance contracts. Under control.
